Bachelor of Computer Applications	2022 - 2027 (Expected)
Kathford International College of Engineering & Management	Balkumari, Lalitpur
Intermediate (+2)	2020
Global Educational Academy GPA: 2.84	Damak 6, Jhapa
Schooling	2018
GyanJyoti Secondary School GPA: 3.05	Gauradaha-2, Jhapa

SKILLS

Languages: Java, JavaScript, SQL, C, C Sharp
Web Technologies: HTML, CSS
Frameworks/Libraries: React, .NET, ASP.NET, jQuery
Databases: MySQL, Firebase

PROJECTS

ProConnect: Build Connections and Showcase Projects | *React.js, Node.js, Express.js, MongoDB, Firebase Auth, JWT, HTML, CSS, JavaScript*

- Engineered a full-stack networking platform enabling users to showcase projects and interact through likes, comments, and follows
- Built and integrated backend services using Node.js, Express.js, and MongoDB, including authentication, user profiles, and project management
- Implemented a hybrid recommendation system using content similarity, interaction scoring, and freshness algorithms to rank and suggest relevant projects
- Designed responsive frontend using React.js, HTML, CSS, and JavaScript, ensuring dynamic user experience with seamless API integration

Sweet Reads Library: Tasty Baking with Delicious Reading | *HTML, CSS, JavaScript, PHP, MySQL, XAMPP, phpMyAdmin*

- Developed Sweet Reads Library, a web-based platform combining library management and online bakery ordering in a single system
- Built backend functionalities using PHP and MySQL, including user authentication, book borrowing/return system, and order management
- Designed and implemented database schema and SQL queries for managing users, books, orders, and fine calculations
- Created responsive frontend using HTML, CSS, & JavaScript, enabling users to browse books, place orders, and track account activity
